Amman-Jordan

Objective

I am seeking a position in the field of web development within an environment that values continuous learning and professional growth, enabling me to keep up with the latest trends and practices in the field. I aim to utilize my skills in front-end and back-end development to build interactive and user-friendly websites and web applications. I am passionate about applying my knowledge of web technologies such as HTML, CSS, JavaScript, and React, and I have recently started learning Laravel to expand my expertise in web application development and deliver integrated, high-quality solutions.

Education

Bachelor of Computer Information Systems, Al-Balqa Applied University, Salt, Jordan

June 2024

GPA: 3.3
